The Paper features on the job of scholastic libraries, challenges in scholarly libraries and the effect of ICT on them in the present setting and how it very well may be overwhelmed by utilizing the prescribed procedures

Keywords : *Practices, Academic Library, NAAC, UGC, Digital, Services*

Introduction

The worldwide changes especially the Information and Communication Technologies (ICT) have affect on the working of scholarly libraries. The advancements in ICT have changed the clients' desire from the scholarly libraries in various ways. The approaches to assemble gathering and administrations to the end clients from the ongoing past practices. To meet the end-clients requests viably, the scholastic libraries need to recognize and embrace great practices and benchmarks. A colossal number of scholarly organizations in India it needs endeavors to get quality library benefits quickly. Advanced education specialists are quite worried about nature of instruction given by the colleges and schools in India. There is misgiving that instruction gotten in these foundations isn't equivalent with the expenses charged from the understudies. Training specialists feel this is swindling with the general population. It is a result of this reason Government of India, UGC and NAAC are truly concerned with respect to how to enhance benchmarks of training and set up best practices in the colleges and schools and their libraries.

During the time spent institutional accreditation, libraries assume a significant job. The administrations of the libraries have been extending as they contribute essentially to the learning procedure, especially the e-learning process. In the present cutting edge learning condition, the library as a learning asset is taking up progressively more scholarly existence in the life of a student.

BEST PRACTICES:-

DEFINITION: - Best practices in the advancement of framework and learning assets supported works on prompting constant enhancement of foundation and learning asset improvement to make an ideal learning vibe.

ODLIS (Online Dictionary of Library and Information Science) depicts best practices as pursues: "In the use of hypothesis to genuine circumstances, strategies that, when legitimately connected, reliably yield predominant outcomes and are in this way utilized as reference focuses in assessing the viability of elective techniques for achieving a similar assignment. Best practices are recognized by analyzing exact proof of accomplishment."

Succinct Oxford English Dictionary depicts 'Best practices as nature of most astounding or alluring sort or most suitable, beneficial, profoundly enhanced, remarkable, second to none administrations or the standard or expected system or method for accomplishing something that is regular or expected route in a specific association or circumstance, rules for good practices. In this procedure of growing prescribed procedures we make a move instead of smart thoughts, and we enhance our aptitudes.'

NATIONAL ACCREDITATION AND ASSESSMENT COUNCIL (NAAC) AND BEST PRACTICES:

College Grants Commission made an advanced education body (whose activity is to survey the nature of college and school establishments) in 1994 in Bangalore on the suggestion of National Policy of Education (NPE) in 1986. This is National Accreditation and Assessment Council (NAAC) which takes a stab at quality and greatness in advanced education and promoters for upgrading the job of library and Information Services in enhancing scholastic condition. Archive arranged by NAAC for "Best Practices in Academic Libraries says : "Best practice might be imaginative and be a rationality, approach, procedure, program, process or practice that takes care of an issue or make new chances and decidedly affect on associations. "School libraries need offices that advance powerful and intelligent access and utilization of data assets for all clients. In the zone of physical offices, the libraries need to offer protected, agreeable, all around lit, clean space, with satisfactory and fitting seating game plans to guarantee viable utilization of the library's assets including advanced assets. Likewise, school libraries are required to consider ponder space needs, while dispensing the seating space, with exceptional consideration being paid to hold accumulations and the lodging condition of the organization. The libraries need to get ready very much confined standards and rules with respect to long stretches of access, dissemination strategies, and different controls to offer better administrations to the clients.

LIBRARY MANAGEMENT

Library the executives is vital thing of any kinds of library. Every single authoritative work are essential. In this library obtaining of perusing materials, recording, course of perusing materials, sequential control and so forth all works are finished.
